OBJECTIVE

AI-enabled Digital Marketing fresher and BBA (Honours) graduate, doing a diploma at TOPS Technologies. Through my blog, ad campaign and business page projects, I have worked on on-page SEO, Google Ads and social media, using tools like Google Search Console, Canva, ChatGPT and n8n. My internship and university events built my communication and teamwork skills. I have a strong interest in building a career as a Digital Marketing Executive and want to start in an entry-level role.

ACADEMIC PERFORMANCE

EXPERIENCE

Intern – Mitticool Clay Creation, Wankaner (On-site)

May 2024 (1 month)

- Handled customers in the showroom and explained the company's products to them.
- Helped change and rearrange the showroom display.
- Interacted with visitors from other cities who came to visit the showroom.
- Gained practical exposure to a professional work environment and built communication and teamwork skills.

PROJECTS

AI in Everyday Life – SEO Blog (Blogger)

- Built a Blogger site on AI in everyday life and optimised it: SEO titles and meta descriptions, Google Search Console setup, sitemap and indexing, robots.txt and content structure.

Google Ads Practice Campaigns

- Set up Search and Display campaign exercises: keyword research with Keyword Planner, ad headlines and descriptions, targeting, budgets and performance metrics.

Social Media Marketing Projects

- Planned and created Facebook and Instagram content for business pages: promotional posts, captions, bios and Canva creatives, with focus on audience-based messaging.

Google Business Profile for a Local Shop

- Created and set up a Google Business Profile for a local shop to practise local SEO and online visibility.
